

Honorable Town Supervisor Harley Doles  
Honorable Village Mayor Abraham Wieder  
c/o Tim Miller Associates, Inc.  
10 North Street  
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

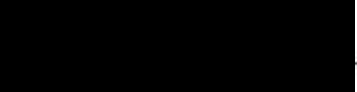

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

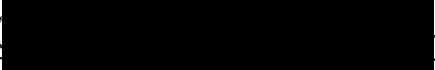

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

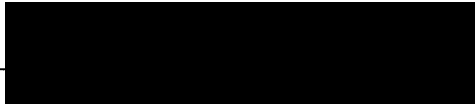

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

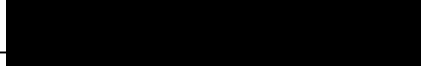

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Print Name: Mr. Yef Araf Signature:

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

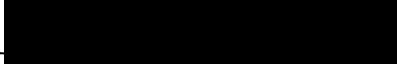

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

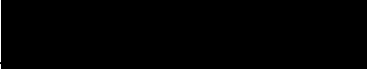

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

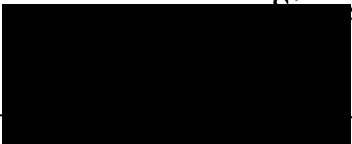

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

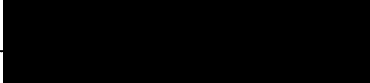

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Print Name: Mr. Moses Buxbaum Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

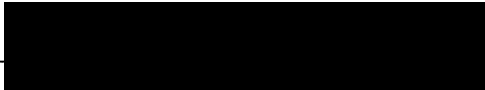

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Print Name: Mr. Mordechai Friedman Signature:

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

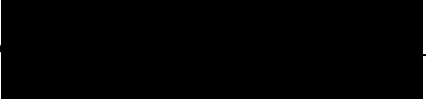

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

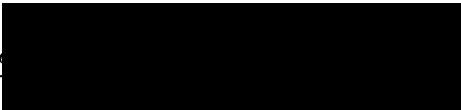

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

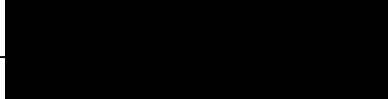

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

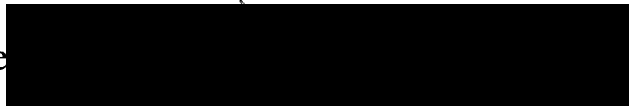

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

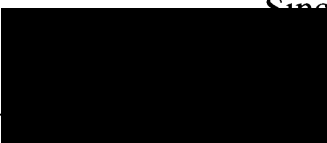

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

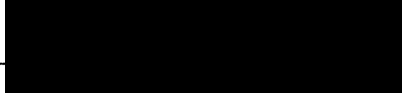

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

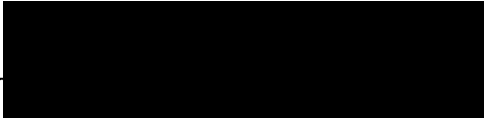

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

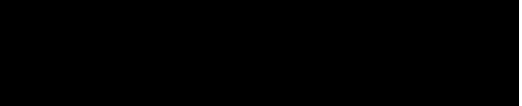

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

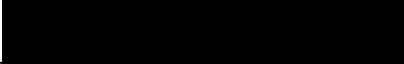

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

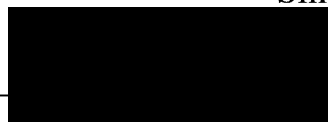

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

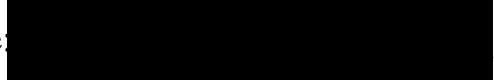

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Print Name: **Mr.** Asher Wieder Signature:

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

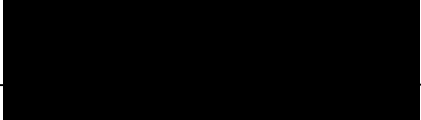

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

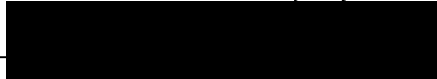

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Print Name: Mr. Joel Farkas

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

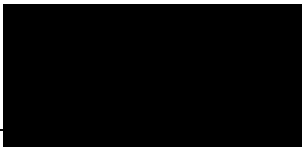

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

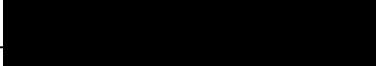

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Print Name: Mr. Moses Feuerstein Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

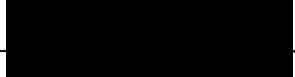

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

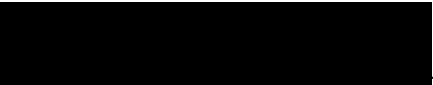

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

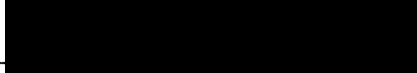

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

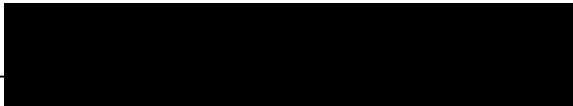

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

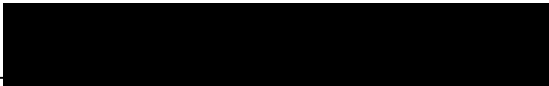

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

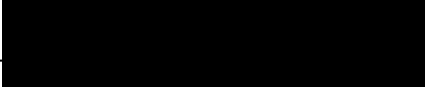

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

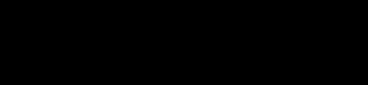

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

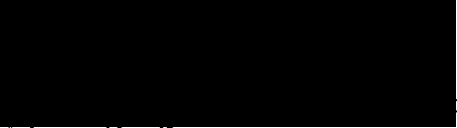

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

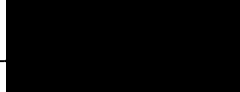

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

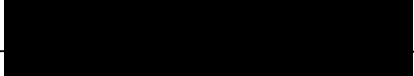

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Print Name: Mr. Jacob Hershkowitz Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

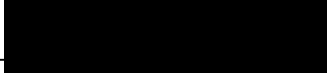

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

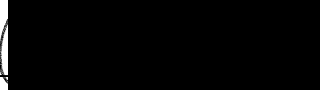

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Print Name: Mr. BENZION ZOLDAN Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

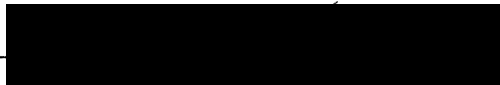

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a <sup>wife</sup> ~~husband~~ and <sup>mother</sup> ~~father~~ residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

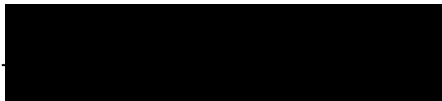

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

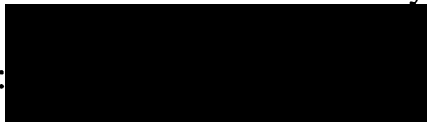

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

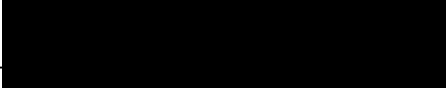

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,
