10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

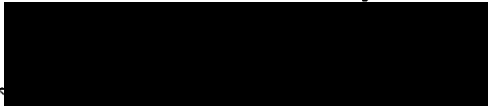

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

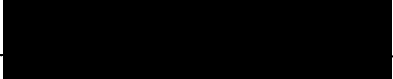

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

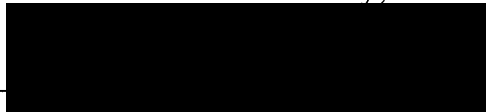

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

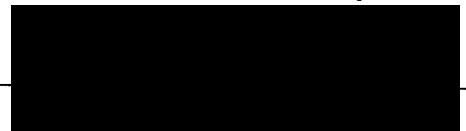

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

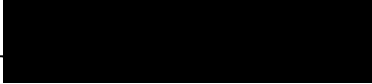

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

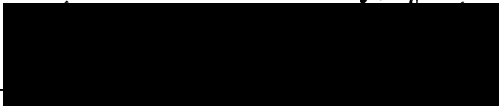

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

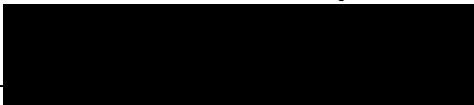

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

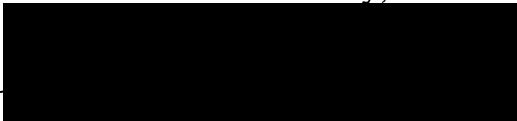

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Print Name: Mrs. Shandy Goldman

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely

As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

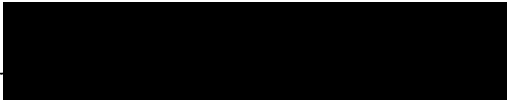

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

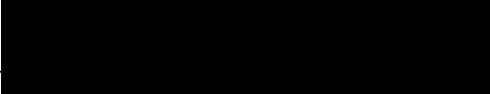

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

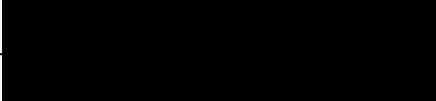

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

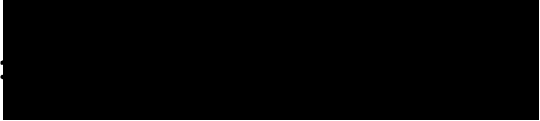

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

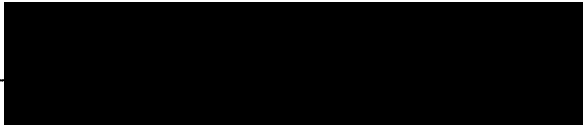

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

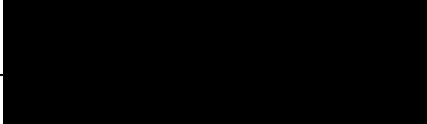

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

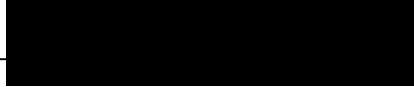

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

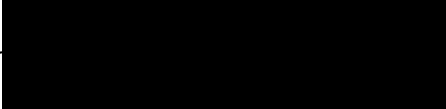

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

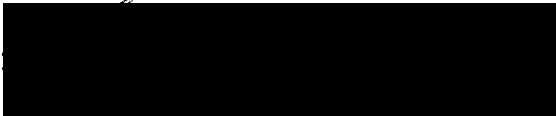

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Dear Mr. Doles and Mr. Wieder,

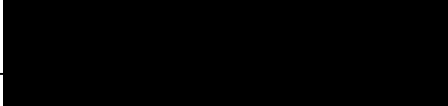

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

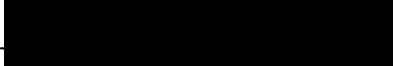

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

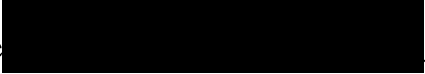

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

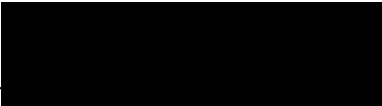

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

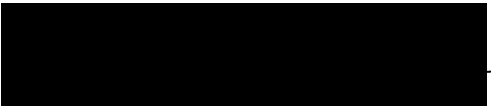

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely, /

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

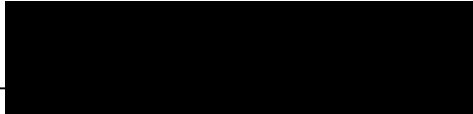

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

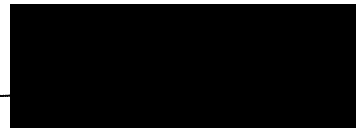

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

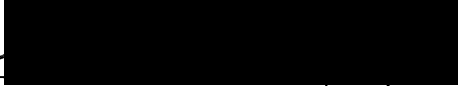

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

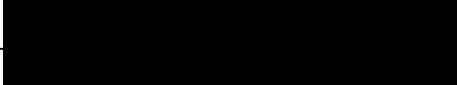

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

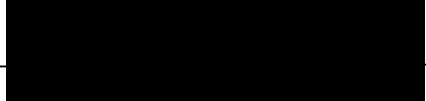

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

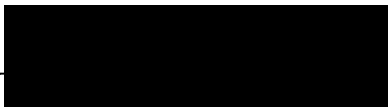

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely

As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

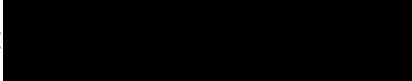

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

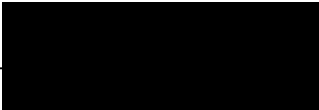

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

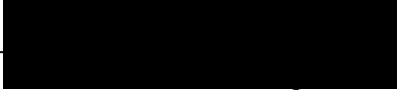

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

Dear Mr. Doles and Mr. Wieder,

I am writing to add my voice in support of the application for annexation of 507 acres of land into the Village of Kiryas Joel. For the reasons set forth below, I strongly believe that this annexation is in the overall public interest of the area.

As a husband and father residing in the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. As my family and other families in Kiryas Joel continue to grow in size, I worry that I will not be able to have adequate living space for my children when they get older and start their own families. I treasure spending time with my family and I can't imagine not having my extended family living nearby in the annexation area, to celebrate family events and holidays with me and my wife.

The annexation will also have a positive impact on the ability to construct affordable housing. This is a crucial need in our community as most of the residents cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs of our expanding community. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my family and community.

For the sake of my children and my neighbor's children, I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation.

Sincerely,

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

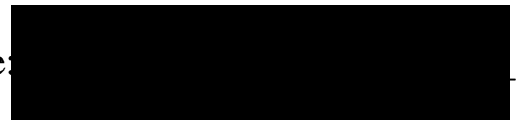

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

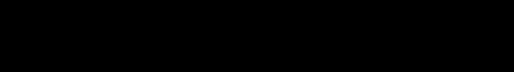

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

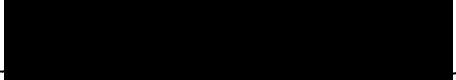

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

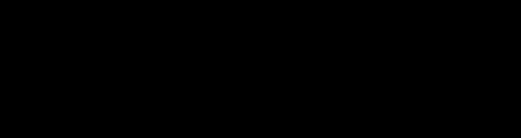

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

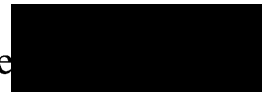

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

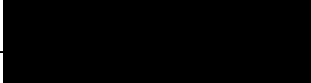

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

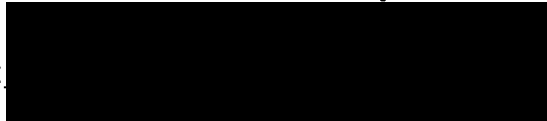

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.

The children of Kiryas Joel are 50% of today but 100% of tomorrow. We need the annexation area to prepare for the future of our children, in a safe and sustainable way.

Thank you for supporting the petition for annexation. The improvement of the quality of our lives is truly in the overall public interest.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

Please accept my sincere request to permit the annexation of 507 acres to permit the annexation of 507 acres of land from the Town of Monroe into the Village of Kiryas Joel. I believe that his request is reasonable, necessary and in the overall public interest.

I am a wife and mother living in Kiryas Joel and I enjoy numerous amenities by living in this community. As I do not drive a motor vehicle, I am pleased that this community has prioritized the need for sidewalks, street lights and a robust public transportation system. These things are not luxuries but rather are necessities to me and my children. They all positively impact the quality of my life and I can't imagine living in an area where these things are unavailable.

Only through annexation will these services be expanded. An enlarged Village of Kiryas Joel will be able to offer sidewalks, street lights and public transportation to the annexation area which will benefit my neighbors and friends. As my children start their own households, they too would be able to enjoy these services in the annexation area, while maintaining their connection to our close family.
