

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles,
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.

As children residing in Kiryas Joel we have a large stake in the issue of annexation. Besides having friends and family living in the area outside of our village, we too are concerned for the future.

We rely on street lights and sidewalks in order to travel in our community, with safety and security. We have the ability to use the Village's Kinder Park in order to have healthy exercise and the fun of play. We have the convenience of walking to school, stores and synagogues in a safe and secure way. We take these things for granted, but they are not available for our friends and family living outside of Kiryas Joel.

Though we are young now, with G-d's help and our parent's guidance, we hope to grow up in this area and continue the tradition of our ancestors. We hope to continue living nearby our families and friends, even after we get married and establish our own households. Only with the annexation will it be possible for us to have an affordable home near our parents and continue to have the many services we need in our lives.

We respectfully ask the Monroe Town Board and the Kiryas Joel Village Board to approve the annexation petition. Our future depends on it.

Thank you for your consideration.
