Honorable Town Supervisor Harley Doles
Honorable Village Mayor Abraham Wieder
c/o Tim Miller Associates, Inc.
10 North Street
Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature: _____

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature: _____

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:  _____

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Cold Spring, NY 10516

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:

Dear Mr. Doles and Mr. Wieder,

I am writing to demonstrate support for the application for annexation of 507 acres of land into the Village of Kiryas Joel. I strongly believe that this annexation is in the overall public interest of the area.

As one of the nearly one thousand students attending the UTA Mesivta College of Kiryas Joel and a resident of the Village of Kiryas Joel, I enjoy many of the services afforded to me in this community. Upon my graduation, I look forward to the opportunity to build a family here and I worry that I will not be able to have adequate living space at that time.

An expanded Village of Kiryas Joel will give me and my fellow graduates the opportunity to find suitable employment, as well as give us social and cultural opportunities for our future. There is also a crucial need for affordable housing in our community as most of my fellow students cannot afford to live in expensive homes on large lots.

In addition to accommodating our growth, the annexation area will also serve the educational and religious needs that my classmates and I require. This new area will be able to accommodate the construction of additional schools and houses of worship which are crucial to the needs of my classmates and myself.

I urge you and the Boards of the Town of Monroe and the Village of Kiryas Joel to support the application for annexation so that after graduation I can continue my residency in this great Village.

Sincerely,

Signature:
