I think they should have postponed the scoping session, so people wouldn't have ^{had} to go out in unsafe conditions. The fact that they had no regard for people's safety shows me they will also have no regard for the preservation of our environment, either!

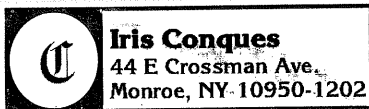

But, since they are lead agency, I would especially want to see them preserve the land for the animals living there, & not disturb their homes & families.

Also, special consideration should be given by them NOT to pollute the water, & the safety of the heavier traffic patterns, that will ensue.

Thank you for your time,

Sincerely,

Iris Conques
