To Whom It May Concern:

I have lived in Monroe for the past 23 years. I've raised two daughters in our wonderful Monroe-Woodbury School District, and now I'm telling them not to expect to come back to start their adult life in Monroe as it will NOT be the same place they grew up in. Also, I have a small business that I am concerned will change with a new demographic tilt if the annexation and urban housing come into the area. The explosion of population will severely affect my business unless Route 17 Exit 130, Route 208 are widened and improved to handle the increase of vehicular traffic. I feel this has to be addressed by the SEQRA review extensively. I don't only speak for myself, but for the business owners in my area as well as homeowners in South Blooming Grove and north, as Route 208 is the only access to that area, and traffic is already heavy during rush hours.

Thank you

Dr. Steven J Pavia
