Re: Proposed annexation of 164 acres
from the Town of Monroe to the Village of Kiryas Joel

Gentlemen:

The Village of Harriman has requested that it be included as an involved agency with respect to the above referenced project. Although the Village's request for involved agency status has gone without response, kindly treat this letter as a further request that the Village of Harriman be designated an involved agency. It is further requested that the proposed scope outline be broadened. Harriman is particularly concerned with respect to water and sewer impacts upon the community. It is therefore respectfully requested that the following addition be incorporated in the scope of the SEQR review.

Under Section E Community Water and Sewer: add 1(h) Impact upon existing municipal water systems and the proximation of water taking applications

The Village of Harriman would further request that with respect to Community Sewer, that a subparagraph under Section E Community Water and Sewer, 1 existing conditions include odor control at the existing Harriman Sewage Treatment Plant, and;

Under Section 2 Potential Impacts: add a subsection (c) Impact upon existing municipal water system, not limited to, but including, Village of Harriman.

Under Section 3 Mitigation Measures, sub(b) odor control at existing Harriman STP.
